

The Inland Empire ABHC

American Board of Home Care

Protecting Seniors & Those Who Serve Them

The Inland Empire ABHC Chapter strives to uphold the trust you have placed in us to review, check, and ensure the best quality of home care providers to look over your family, friends, patients.

Our goals are to establish industry standards for Home Care and act as advocates for "Employer Model" home care companies, primarily at the city, county and state level.

The Certified homecare companies listed below provide the best care possible by adhering to the following certification requirements:

- *Carry Worker's Compensation for ALL of their caregivers*
- *Only provide caregivers that are employees of the company*
- *Do not provide caregivers who are "Independent Contractors" that are not covered by worker's compensation*
- *Pre-employment background clearance on ALL caregivers*
- *Have been in business for at least one year*
